Your Eye Exam

Your wait time is brief...a technician gets your exam started soon after you arrive. You are seated in an exam room after some additional information is gathered and a few tests are run.

Your doctor takes time to go over your exam results and make recommendations. Then, you are given the opportunity to ask questions before leaving the exam room to the optical area. A staff member is waiting to help you.

Choosing Frames You Will Love to

Wear

Hundreds of frame styles are arranged on tables, making it easy to try them on. Your optician has selected 5 frames to help you get started, making it easy to discover the perfect fit and style. You learn that Moody Eyes specializes in independent brands that offer great design and quality at an amazing price.

Your fees are explained clearly and concisely with no tricks or gimmicks. You realize you can afford to purchase the polarized sunglasses you have been wanting to use when you drive and on the vacation you're planning.

This all takes less than an hour...the Moody Eyes 50-Minute Experience.
