## **OUR STORY**

### **We Love Our Patients**

- **PERSONAL**

## PERSONAL

In 2005 Dr. Moody found himself at a crossroads. He was looking for the next stage of his career. He had worked at many different practices, including Independent Optometry, LensCrafters, Dr. Tavel, Eyeglass World, Sears Optical, ophthalmology practice, LASIK surgical center, Inner-City Multi-Disciplinary Clinic.

He saw patients who really wanted more personal attention than they could receive from large chain stores or through the Internet. He realized that only an independent eye care professional could provide that level of personal service.

It was time to create the practice he envisioned.

## ▪ AFFORDABLE

## AFFORDABLE

Dr. Moody also saw patients who loved the wide selection that some of the larger chains carried – only to have sticker shock at the prices once they became victims of their up-sell tactics.

This would become an important foundation for his own private practice. Offer the best selection of today's most popular brands as well as boutique collections and – offer them all at AFFORDABLE PRICES.

Easy-to-Understand pricing, including maximizing your vision benefits and providing the best vision care value in Indianapolis...period.
